SWITCH & SOCKET  
SERIES

# RANK™

Electrical accessories

## Feature

PRODUCTS

PESARO

### Phosphor Copper

The overall function part use high quality phosphor copper to make from one -stage moulding. The thickness is 0.6mm, significantly lower contact resistance, to keep current electricity stable and smooth.

### Compound Silver Contact

High purity composite silver contacts, to keep current electricity more stable .Max current is 16A . Switch lifetime more than 40000 times for home using.

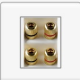

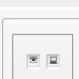

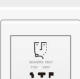

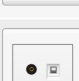

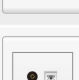

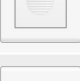

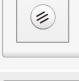

SWITCH & SOCKET  
SERIES
